**Subject:** RE: 105 Work Plans

Hi AJ,

For mine... all the ones without due dates are operation of monitors, so that activity never really ends. Perhaps activity is a better descriptor – good idea!

Howard

**Subject:** 105 Work Plans

Hello everyone!

I've included below all of the monitoring commitments for the 105 program. I just have a few clarifying questions before I send them out to the agencies.

For the deliverables with no due dates currently – do these have due dates? If so, let me know and I can add them into the document. Or should they be activity? Let me know what works best. If we don't know the current due date, I can ask the states to provide a date when we ask for comments on the work plan.

If you don't mind, please give them all a quick glance and let me know if anything should be added or deleted.

Thank you!!!

Deliverable/Activities	Due Date	Received Date	EPA Comments	Agency Comments
DELIVERABLE: Construct, outfit, implement, install and operate the Tidewater area near-road NO2 monitoring station. VADEQ will provide a summary on the site status for : site survey, site prep, equipment purchasing, and official start-up. By the deliverable due date, please provide the status to the EPA contact listed above.				
The station will meet design and siting criteria as spelled out in 40 CFR Part 58.
